REVIEW OF MARKETS

FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, May 21.—The stock market was soft from the start today, and yielded readily to the assault of the bears. There was practically no buying demand of any importance perceptible, and prices best ground pretty steadily all day, even on a light volume of trading. Late in the afternoon Third Avenue made a sudden advance of 6 points, and caused some uncasiness amengst the room shorts, who bought moderately to cover. But the rally was insignificant outside of Metropolitan, Brooklyn Transit, Sugar and Tobaceo. The sudden upward movement in Third Avenue was unexplained, except by last week's move to secure the discharge of the receiver and the progress being made in the betterment of the system. The longs outstanding short interest in the stock was aimed at by the advance. The heaviness in the market during the day reflected the keen disappointment over the failure of last week's enve to secure the discharge developments to atract any outside demand. It was soon evident that London especially had looked too hopefully to take up American stocks, and the early morning news from that quarter showing declines for the international stocks was a disappointment. The sales for London account were not in large volume, but their sentimental effect was decisive, and soon overcame the strength in the few specialties which attempted to make headway against the tide. It was decisive, and soon overcame the strength in the few specialties which attempted to make headway against the tide. It was delar that speculators who bought stocks late last week counted upon London taking them off their hands after that market had subsided from its hysterical outburst over the reflet of Markeking. But London shared with the Continental bourses a mood of depression. International houses in Wall street attributed this to disappointment over the denial of the report that President Kruger had made humble advances for peace, and Berlin advices reported fears of an outbreak between Russia and Japan, in the New York market the Grangers and Pacidic New York, May 21.-The stock market

time and with such commence that it is also makeness with the rest of the market mot weakness in the wheat and cotton markets was not without effect in Wall street. In the money market the supply of mercantile paper is reported to be decreasing owing to the set back to trade in various lines. Bear operators profess uncashess over the likelihood that freight rates will not hold in face of the decreasing traffic in railroads. The grain traffic of the Western lines has fallen to the lowest level of the year, and is stiff decidedly below last year's level. Westbound merchandise traffic is reported to be sufficient to maintain earnings as yet above hast year, but current earnings, in spite of the blaber rates in force, are only slightly above last year.

Bonds were much better sustained relatively than stocks, though there were weak spots in the list. The accumulation of funds seeking investment is making some alight investment on the hond market. Total sales, par value, \$2,090,000. United States refunding 2's, when issued, declined by, and the new 4's, old 4's and 5's, \(\frac{1}{2}\) in the bid price.

Today's total stock sales were \$10,500 shares.

The Cotton Warkets.

NEW YORK COTTON MARKET.

New York, May 21.—A heavy buiness was transacted in cotton futures today, resulting from a desire to liquidate following weak cables from the Liverpool market, which private advices reported to be in a state of collapse. The market here opened 2 and 5 points lower, and further declined 4 and 29 points. Liquidation of long accounts was the feature.

Except from some conservative buying on the reaction theory, the shorts were the best buyers. A few good people have been buying in a moderate way on a belief that the market has been oversoid and is entitled to a considerable reaction. Sontiment in the main, however, keeps bearfsh on the brilliant character of the crop accounts and the sagging tendency of Southern spot markets. Southern spot markets, Southern erners continue to sell the new crop positions and send hearfsh advices regarding the crop outlook. Private advices say there is no speculation in cotton at Liverpool, while the spot demand abroad is slow, following a poor outlook for trade and consumption. Under heavy general selling. August dropped to \$8.75 into the decline of the close on profit taking, finally being is steady at a net decline of 7 and 29 points. New York, May 21.—Spot cotton closed quiet, 1-16 lower, middling uplands, 9 11-16 into the day, but railled slightly near the close on profit taking, finally being is steady at a net decline of 7 and 29 points.
